

Kanchana Koralage

DevOps Engineer intern

itsmekanchanakoralage@gmail.com | 070-4975336 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMERY

Final-year IT undergraduate with hands-on experience in full-stack development and DevOps practices. I am skilled in building and deploying containerized applications using Docker, Kubernetes, and Helm. Experienced in implementing CI/CD pipelines with GitHub Actions, Jenkins and ArgoCD, and monitoring applications using Prometheus and Grafana. Seeking a DevOps or Software Engineering internship to apply technical skills and contribute to real-world projects.

TECHNICAL SKILLS

- **Containerization & Orchestration:** Docker, Kubernetes, Minikube
- **GitOps & CI/CD Pipelines:** ArgoCD, GitHub Actions, Jenkins, GitLab
- **Infrastructure as Code (IaC):** Terraform, Ansible
- **Monitoring & Observability:** Prometheus, Grafana
- **Web Server & Networking:** Nginx, Reverse Proxy, SSH, Firewalls (NSG), Load Balancing
- **Operating Systems:** Linux (Ubuntu), Windows
- **Cloud Platforms:** Microsoft Azure, AWS, Oracle Cloud Infrastructure (OCI), GCP
- **Databases:** MongoDB, MySQL, PostgreSQL, SQLite, Azure SQL Database
- **Frontend:** React, React Native, JavaScript, TypeScript
- **Backend:** Python, Java, C#, Node.js, Express.js, Spring Boot, .NET 8, Go
- **Scripting & Automation:** Bash, Shell Scripting, PowerShell
- **Testing:** Postman, Selenium, Cypress
- **Tools:** Git, GitHub, GitLab, Bitbucket, SonarQube, Trello

WORK EXPERIENCE

Software Engineering Intern

Gamage Recruiters – Panadura

July 2025 – December 2025

- Develop and maintain web and mobile applications using React Native, React.js, TypeScript, JavaScript.
- Contribute to backend development with Node.js and Express.js.
- Participate in API testing and automation using Postman and Selenium.
- Collaborate with team members and track progress through Jira and Trello.
- Follow CI/CD best practices and version control using Git/GitHub.
- Assist in designing scalable and user-friendly interfaces for multiple applications.

PROJECTS

Python Rest API with Docker Kubernetes and CI/CD Pipeline

[GitLab Repository](#)

- Developed a simple Python REST API with separate frontend and backend services.

- Containerized frontend and backend applications using Docker and push images to DockerHub.
- Configured Helm charts and Kubernetes manifest files for application deployment and orchestration.
- Built a CI/CD pipeline using GitLab and deployed applications locally using Minikube and GitLab Runner.
- **Tools and Tech stack:** Python FastAPI, Docker, Kubernetes, Helm, Nginx, GitLab CI/CD, PowerShell

Cloud-Native CI/CD Pipeline with GitOps and Monitoring

[GitHub Repository](#)

- Built and deployed a containerized MERN app on Kubernetes (Minikube) using Docker.
- Implemented CI pipeline using GitHub Actions for build, test, and image creation.
- Set up GitOps-based CD using ArgoCD for automated Kubernetes deployments.
- Used Helm for managing Kubernetes manifests across multiple environments (dev, staging, prod).
- Integrated Prometheus and Grafana for monitoring and dashboards.
- **Tools and Tech stack:** React, TypeScript, Node.js, Express.js, Docker, Kubernetes, Nginx, ArgoCD, GitHub Actions, Prometheus, Grafana, Bash, PowerShell, Helm

Python Task API with DevOps

[GitHub Repository](#) [Live Link](#)

- Built REST API using Python (FastAPI) with CRUD operations.
- Containerized the application using Docker to ensure consistent build and runtime environments.
- Designed and implemented an end-to-end CI/CD pipeline using Jenkins, automating build, versioning, and deployment processes.
- Implemented Kubernetes based deployment using Minikube, then upgraded to AKS.
- Enabled rolling updates and rollback with versioned Docker images.
- **Tech stack:** Python (FastAPI), Docker, Jenkins, Kubernetes, AKS, Minikube

EDUCATION

BSc (Hons) in Information Technology

Sri Lanka Institute of Information Technology- SLIIT

Oct 2022 – Present

Advanced level (AL)

Ananda Central Collage- Elpitiya

May 2017 – Aug 2019

CERTIFICATIONS

- Kode Kloud Linux Certification Level 1 - [Link](#)
- Kode Kloud 100 days of cloud ([Azure](#) | AWS) – In progress
- Oracle Cloud Infrastructure 2025 Certified DevOps Professional - [Link](#)
- Kode Kloud 100 days of DevOps - [Link](#)
- Oracle Cloud Infrastructure 2025 Certified Foundations Associate – [Link](#)
- AWS Academy Graduate - Cloud Web Application Builder - [Link](#)

SOFT SKILLS

- Teamwork
- Leadership
- Communication
- Problem-Solving
- Creativity
- Adaptability
- Time Management
